Dear Partners and customers of MBK

RE: To inform and request for your cooperation in complying with the anti-corruption policies and measures

MBK GROUP is aware that corruption can tarnish the company's reputation in operating its businesses and such practices are also a major obstacle for the country's economic and social development. Therefore, MBK GROUP has partnered with public and private sectors to take part in "Thailand's Private Sector Collective Action Coalition Against Corruption," for seven consecutive years by establishing anti-corruption policies and measures. By doing so, the coalition sets up guidelines for acceptable practices, while creating a good baseline for collaboration. MBK GROUP released and published the abovementioned policies and measures on its corporate website.

As you are part of the business operation of MBK GROUP, we ask for your cooperation, as well as from your organization and personnel under your supervision, to promote and support every type of anti-corruption practice to create confidence to all stakeholders. Your cooperation will also contribute towards the social and economic development of our country and bring fairness in business operations.

MBK is grateful for your ongoing cooperation and support. We hope that such practices will extend and enhance our business relationship into the future. Your cooperation is highly appreciated.

Yours faithfully,

Suvait Theeravachirakul

President and CEO
